Don't neglect the title to your property. You may want to sell or secure a loan, and be in a hurry, and something turn up wrong with your title at the last minute, and the deal fall through. Delay means loss of money, possibly the loss of your home. We could tell you of instances where parties had to go into court to clear the title to the home they thought was theirs, because of waiting a few days too long. Court costs are enormous.

When you get an abstract insist on your real estate agent or your banker getting it of us. Patronize one of the boys from your own part of the country.
